

# What is sheltered housing?

From the moment you arrive in your new home, you'll feel welcome and supported. Our sheltered schemes are friendly places to live, that offer the perfect balance of safety and independence.

Not only will you receive a weekly visit from an experienced support co-ordinator, your home will come with an alarm system that allows you to contact a member of staff 24 hours a day.

All of our sheltered homes come with a double bedroom (some may have two bedrooms), a fitted kitchen (white goods aren't provided), living space and a bathroom or wet room.
